

# PRODUCT CATALOG

Unleash the power of our cutting-edge technology, which not only offers superior grass cutting capabilities but also allows you to effortlessly switch between multiple attachments for tasks like loading, snow pushing, and orchard spraying. With our all-in-one solution, your equipment costs and maintenance expenses will significantly decrease, while your overall productivity and economic benefits soar.

# Product Feature

## 1. Patent-Protected Gear Shaft Transmission: Unleashing Efficiency

Unleash the true potential of agricultural operations with our patent-protected gear shaft transmission. This innovative technology ensures seamless power transfer, maximizing efficiency for a superior performance.

## 2. Multi-Functional Capability: Versatility Redefined

Experience unmatched convenience with our tractor's versatile features. Seamlessly switch between rotary tillage, trenching, and fertilization functionalities by simply changing the attachments, eliminating the need to disassemble the transmission. Embrace seamless adaptability like never before!

## 3. Universal Compatibility: A Perfect Fit for All Tractor Implements

Our tractor boasts universal compatibility with all four-wheel tractor implements, revolutionizing agricultural tasks. Embrace the power of versatility by utilizing existing tractor attachments, optimizing your farming productivity to new heights.

## 4. Remote Steering Control: Precision at Your Fingertips

Take full control of your agricultural endeavors with our intuitive remote steering system. Effortlessly guide the tractor's movements from a distance with precision, ensuring optimal performance and coverage for a seamless experience.

## 5. Six Forward Gears, Two Reverse Gears: Conquer Every Terrain

Designed to conquer any challenge, our tractor features six forward gears and two reverse gears, adapting flawlessly to various functions, soil types, and depths. Conquer diverse terrains with ease and achieve superior agricultural results.

## 6. Reinforced Transmission and Chassis: Built to Endure

Built for endurance and lasting performance, our tractor boasts a reinforced transmission and chassis, ensuring longevity and stability during demanding agricultural tasks. With a robust total weight of 930 kilograms, our machine stands strong against rigorous conditions.

## Product Specification

Item		Unit	Value
Host Power	Size (in rotary tillage state)	mm	2600*1100*1130(length*width*height)
	Quality	kg	930
	Walking Gear		6 forward gears, 2 reverse gears
	Working Gear		2 gears for ditching, 2 gears for rotary tillage
	Track Material	/	Rubber and steel frame, steel wire
	Width	mm	180
	Control Method		Manual driving (can be upgraded to remote control/manual dual system)
Battery	Fuel Type	/	diesel fuel
	Structure Type	/	Single cylinder 4 stroke water cycle diesel engine
	Power	Kw(hp)	25(35)
	Rotating Speed	r/min	2200
Rotary Tillage	Type	/	Lead-acid power battery
	Capacity	Ah	45
Function Ditching	Rotary Tillage Depth	mm	0~300
	Rotary Tillage Width		Standard 1200 maximum 1500 (can be customized according to demand)
Function Weeding	Trenching Depth		0~400
	Trench Width		Standard 350~400 (can be customized according to demand)
Function	Weeding Width		Standard 1200 maximum 1500 (can be customized according to demand)
